

Tips for Burnaby seniors to prepare for heat

Are you a senior living in Burnaby?

Call 2-1-1 to register for phone call check-ins during heat waves

Use water to cool down

- Drink plenty of water
- Wear wet clothing or damp towels
- Take cool baths or showers
- Place your feet in cool water

Keep your home cool and watch its temperature

- Keep windows and blinds closed during the day and open them at night
- If your home is over 31°C, go to a building with air conditioning. If you can't, use water to keep cool
- Fans don't cool the air, so don't blow hot air at yourself. It can make you hotter, not cooler.

Check in on family, friends and neighbours

- Check in at least two times per day when it is very hot
- Get someone you know to check on you
- Burnaby seniors can call 2-1-1 to register for phone call check-ins during heat waves

Learn signs of heat sickness

- May include feeling dizzy or confused, less coordination, or hot and red skin
- If you have symptoms of heat sickness, call 9-1-1 or go to the nearest hospital
